- GALA CELEBRATION
- AUCTIONS & RAFFLES

"It is impossible for any one adult to be all things to all youth at all times, but as a community we can." - Dr. Ben Houlberg, President and CEO, Search Institute

Relationships are at the core of this work.

Every teen deserves caring adults who notice & encourage them. For youth facing anxiety, isolation, and disconnection from school, those relationships can make the difference between falling further behind or finding a way forward.

In 2025, one in four students in Illinois was identified as chronically absent from school. Chronic absenteeism severely hinders academic achievement, reading proficiency, and graduation rates, leading to isolation from peers, family members and other caring adults.

Heart Haven Outreach is responding with consistent, relationship-based support that helps teens reconnect and stay engaged. In partnership with Valley View School District, H2O has expanded support for students facing chronic absenteeism, including the launch of Check & Connect, while continuing to provide mentoring, after-school programs, and transportation to reduce barriers and keep teens connected.

We need your help in these efforts. It takes the willingness of our entire community to show up for youth in meaningful ways. Together we can help more youth stay in school, avoid justice system involvement, and move toward stable futures.

Please join us on Thursday, July 16 at the Bolingbrook Golf Club for our 23rd Annual Raising Hope Golf Outing and Gala Celebration. By attending and supporting this event, you are helping Heart Haven Outreach continue to provide relationships that help teens heal, grow, and see a future filled with possibility.
